

Christian Healthcare Ministries

The biblical solution to healthcare costs

Free Medical Consultant Services

Dear Christian Healthcare Ministries participant,

I have had the privilege of serving as your medical consultant since 1995. The free medical consulting service was conceived by CHM leadership as a means of assisting members in making wise medical choices and controlling skyrocketing health care costs. The free consulting service attempts to meet that need through a variety of resources.

Healthwatch column in the Christian Healthcare Ministries newsletter

Each newsletter issue includes an in-depth teaching article on a relevant health issue from a biblical perspective. Also, the newsletter often contains practical articles on cutting-edge research.

Educational resource website

We have designed www.chministries.org to be a "hub" for biblical health resources on a variety of spiritual and physical topics.

Resource areas include:

- practical information on common health concerns
- sign-up for our free e-newsletter *Vital Signs*
- *online store* with tapes, videos and books

Consultation

The *Request for Medical Information (RFI)* sheet allows you to submit questions about your particular medical condition. This is especially valuable **before** you experience significant expense. It is designed to assist you in determining the best approach to your medical need. Our purpose is not to replace your primary physician, but to be a resource to you (and your doctor). When you have a medical question, send in the enclosed Request for Medical Information sheet or use our online form at www.chministries.org. (Please do not submit the form until you have a medical question.)

In addition, this service consults with the leadership of Christian Healthcare Ministries to reduce unnecessary costs and to keep member fees down. If you would like to support these services financially, you can do so by sending a gift to CHM and designating it to the "medical consultant fund."

Gratefully yours,

Michael D. Jacobson, D.O.

Examples of consultation benefits

- A member in Missouri had severe low back pain and was encouraged to obtain an MRI (about \$1,400) and to consider back surgery (at an expected cost of \$10,000). We informed him about an alternative that cost him \$600 and restored his back without any further tests or surgery.
- A young female missionary had to return from the mission field due to a severe illness that went undiagnosed after numerous tests. We suggested a particular lab test that pinpointed the problem and resulted in her regaining her weight, energy and ministry at a very modest cost.
